Elden Ring Features Key:

Aim of the Game: Its the goal of the game is to gather 80 XPand 4 Skill Points after a certain amount of time, and fight against a Level 120 monster. Though this might be simple, our unique PVP/PVE mix online part where no two users are the same make this game plenty of fun. Once you learn the basics, you can go around freely enjoying the large dungeons that contain crystals and valuable items. You can also explore areas you may not have stumbled into, and all areas of the world have a story. Even after upgrading you can still enjoy some all-out action.

Character Creation: At first, you can simply choose your character class. There are 8 classes, ranging from Warrior, Magician, Thief, Assassin, and Wizard. You are not limited to the abilities of only one class. Instead, you can equip and combine weapons, armor, and magic. You can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior. You can also seamlessly change your equipment to meet the enemy's tactics.

Bond System: The bond system is where you can have a special buddy out live with you. There are several factors you can assign to determine who your buddy will be out for: Your current level, your level at last play, your fame in the EP, and your fame due to the previous match. You can trade or go have adventures together.

Player vs Player: In our PVP part, you can still enjoy a more strategic experience. Any person can automatically enter or exit battles. In addition, you can guard your area as a specialist in battle or go find someone in the market towns to go have a drink and talk about what just happened.

Upcoming Features: The game also has several free updates for our players.
